Dear Parent or Carer

Our records indicate that your son/daughter has asthma. In line with new non-statutory guidance, it is now possible for schools to keep emergency Ventolin on site for use with pupils who have an asthmatic attack in school. This is in case a pupil forgets their inhaler or their inhaler is out of date. As part of the guidance, it is necessary for parents to:

- Confirm that their son/daughter has been diagnosed with asthma
- Give permission for their son/daughter to be administered with this emergency Ventolin if for any reason they have forgotten to bring their own inhaler.

This inhaler can only be administered if you have given your consent. If your child does need to receive this inhaler in school, you will be informed of its use.

If you agree to this then could you complete the attached consent form and return it to school as soon as possible. If your child no longer need Ventolin, please could you indicate this on the consent form.

Thank you in advance for your co-operation.

Yours sincerely

Mrs F. Harrison
Headteacher

USE OF EMERGENCY SALBUTAMOL INHALER
Notre Dame Catholic College

Child showing symptoms of asthma / having asthma attack

1. I can confirm that my child has been diagnosed with asthma / has been prescribed an inhaler [delete as appropriate].
2. My child has a working, in-date inhaler, clearly labelled with their name, which they will bring with them to school every day.
3. In the event of my child displaying symptoms of asthma, and if their inhaler is not available or is unusable, I consent for my child to receive salbutamol from an emergency inhaler held by the school for such emergencies.
